If you are one of the few who don't have cover we would advise that you think about putting it in place for this purpose, it may be well worthwhile.

The reason for us giving this advice is to **protect** yourself in the event of **your animal lashing out and injuring someone or damaging someone's property**, if that were to happen and it is established that **your animal was out of your control you may be held responsible**, or partly responsible for any injury or damage caused and end up paying all or part of any settlement reached.

Important notice to Animal Owners who are involved in Showing their animals

The Irish Shows Association would advise all Animal owners who have their Animals Insured to have the **Insurance cover extended to cover them while showing animals at Shows**. We understand that it cost very little or nothing at all depending on whom you have Insurance cover with.

If you are one of the few who don't have cover we would advise that you think about putting it in place for this purpose it may be well worthwhile.

The reason for us giving this advice is to **protect** yourself in the event of **your animal lashing out and injuring someone or damaging someone's property**, if that were to happen and it is established that **your animal was out of your control you may be held responsible**, or partly responsible for any injury or damage caused and end up paying all or part of any settlement reached

Section 3 – SHEEP

Unless animals are entered in the Catalogue and on a signed entry form they will not be allowed in the Show

Important notice to Animal Owners who are involved in Showing their animals

The Irish Shows Association would advise all Animal owners who have their Animals Insured to have the **Insurance cover extended to cover them while showing animals at Shows**. We understand that it cost very little or nothing at all depending on whom you have Insurance cover with.

If you are one of the few who don't have cover we would advise that you think about putting it in place for this purpose it may be well worthwhile.

The reason for us giving this advice is to **protect yourself in the event of your animal lashing out and injuring someone or damaging someone's property**, if that were to happen and it is established that **your animal was out of your control you may be held responsible**, or partly responsible for any injury or damage caused and end up paying all or part of any settlement reached

Specific Requirements - Sheep

Identification

All sheep must be individually identified with plastic ear tags issued on accordance with the requirements of the National Sheep Identification System (NSIS).

Movement Documentation

All consignments of sheep being moved must be accompanied by the completed

dispatch document. Individual details of each sheep in the consignment must be recorded.

Flock Register

All movements of sheep to and from shows must be recorded in your flock register. Use event code "S".

Exports (to Member States of the European Union including Northern Ireland)

All sheep must be accompanied by certification laid down in Directive 91/68/EEC as amended. Organisers are advised to contact their Local District Veterinary Office well in advance of any show where sales may take place to determine the suitability of the show for exports (e.g. premises and sheep status), availability of veterinary staff for export certification and to have the necessary arrangements out in place.

Attendance of sheep from scrapie monitored flocks at shows and sales in 2010

Shows between 1st May and 31st October

Sheep from scrapie monitored flocks will be permitted to attend agricultural shows taking place between May 1st and October 31st without restriction or separation from other categories of sheep.

Shows outside that period

For shows taking place before May 1st or after October 31st, sheep from scrapie monitored or probationary flocks must be separated from other sheep as follows:

There must be complete separation of monitored/probationary sheep from other categories of sheep at the show. Ideally, this would mean a separate entrance and exit for each group, separate loading and unloading areas, separate penning areas for each of the two groups.

In locations where all of the above may not be possible, the minimum requirement would be the separate loading and unloading and also of penning areas. The two areas should be separated by a sheep-free alleyway, at least 12 feet wide. If only one show ring is available, the sheep from the scrapie-monitored flocks must be shown first.

The 'Patrick Keoghan Cup' and €75 will be presented to the Champion Pedigree Sheep at the Show and €50 to the reserve champion
